

Mathematics

This week we will be looking at length and finding things which are taller than/smaller than an object.
 Using a pencil can you find things which are taller than the pencil and then smaller than the pencil. Can you find anything which is the same as the pencil? We have assigned a powerpoint in TEAMS to help support your child's learning.

Remember to keep counting forwards and backwards from 0-20 and from random starting and finishing points. Keep working on finding 1 more than/1 less than a given number up to 10 then 20 and have ago at counting in 10's too!

RE

We will soon be celebrating a very special occasion in the Christian Calendar which is Easter Sunday. We have discussed different 'Celebrations' throughout the year and how different cultures have differing traditions and are all special. Can you share the powerpoint assigned in TEAMS called 'The Easter Story' which will explore how and why easter is celebrated?

Fine Motor Skills

Chicks hatch at this time of year – Spring!
 Have a go at making your own chick by using the activity assigned in TEAMS. Cut out each of the shapes making sure you hold your scissors correctly and cut along the lines carefully. Use glue to stick the shapes together to make your very own chick!

We Are Bug Hunters

Here are some home learning tasks to support you and your child whilst they are learning at home. These tasks are in-line with learning that is/would have been taking place in the school. Our topic is 'We are Bug Hunters' and we are also reading the book 'The Bad Tempered Ladybird' by Eric Carle along with information books.

As well as these challenges this is an ideal opportunity for children to develop experiences outside of the classroom. Activities such as home baking, gardening, helping around the home, and talking together are all equally as important in developing your child's vocabulary to support their ongoing good progress.

We are really impressed with all the hard word you are completing at home as part of your homework tasks.

On this overview are some ideas for learning this week.

Please adapt and support your child as much or little as you feel they need. Work can be completed on paper or practically. Don't feel you need to print out sheets from the website – these can just be used as ideas and starters for your discussion and as ways to record in your books.

Please continue to upload completed work to TEAMS.

Expressive Arts & Design

We will be making Easter cards to share with our family as part of our celebrations. Can you make an Easter card for a family member or someone who is special to you? Think of your own design and use a range of different materials such as card, paper, tissue paper, paint and pencils. Here are some designs to take a look at! Have fun!

Literacy

This week we will be continuing our author study of Eric Carle by reading 'The Bad Tempered Ladybird'. You will be able to find a version on YouTube if you do not have a copy. After you have shared the story with your grown up can you talk about which has been your favourite story by Eric Carle and why?
 Can you draw a picture from your favourite story and write simple sentences or captions to say why it is a favourite. Remember to use your phonic knowledge and correct letter formation.

Phonics lessons will be allocated to your child using their BugClub account. They will be in line with the phonics lessons for the phase your child is in. You will also be allocated two books for your child's current phonic phase. Please read at least three times per week, answering comprehension questions and completing the BugClub challenges!

Understanding the World

This week we will be learning all about the signs of spring and how it is a new season. Can you talk about the different types of weather we experience such as sunny, cloudy, windy or rainy and how it changes on a daily basis. Talk about the seasons of the year and how they are all different. Which season are we in now, how do you know? Look at the powerpoints assigned in TEAMS and then go on a walk outside to see if you

			can spot any signs of spring around you.
