

Reception Online Learning Tasks 27.6.2021

Mathematics

Daily Maths lessons will be uploaded on Teams in **Assignments**.

This week we will be investigating and exploring capacity, length, height and pattern.

Each session will require different resources which will be listed within the notes section and at the beginning of the lesson video.

PSED

We will soon be moving to Year One and when we return to school our transition visits will take place. You will meet your new class teacher and classroom. Share the following video as part of our 1Decision framework. Talk to your grown up about how you are feeling about moving year groups and if you are worried about anything or what you are looking forward to.

Expressive Arts and Design

Can you make your own medal just like the Olympic medals?
You can use a range of resources such as ribbon, foil, cupcake holders, card and sequins. Perhaps you can make a medal for each of your family members and hold your own Olympics!

We Are Olympians

Here are some home learning tasks to support you and your child whilst they are learning at home. These tasks are in line with learning that is/would have been taking place in school.

Our topic is 'We are Olympians' and we will be discovering information about the Olympics.

We are really impressed with all the hard work you are completing at home as part of your homework tasks.

On this overview are some ideas for learning this week.

A folder with suggested activities has also been assigned to TEAMS.

Please adapt and support your child as much or little as you feel they need. Work can be completed on paper, practically or in the blue book your child brought home with them. Don't feel you need to print out sheets from the website – these can just be used as ideas and starters for your discussion and as ways to record in your books.

Please continue to upload completed work to TEAMS.

Understanding the World/English

Daily activities will be uploaded on Teams via **Assignments**.

We will be basing our work this week on the Olympics and learning about how and when it started (**past**) and how it is celebrated today (**present**).
Assignments.

There are lots of sports which are celebrated within the Olympics such as swimming, gymnastics and athletics. We will be discovering each of the sports and writing facts about our favourite sports. **Assignments.**

Each year the Olympics take place in a different country. We will be learning about the host country Japan – discovering the culture, food and traditions (**People, Culture and Communities**) **Assignments.**

Gross Motor Skills

How many Olympic challenges can you complete? Have fun!

- * Play football
- * Try balloon tennis
- * Set up a long jump
- * Make your own obstacle course and time how long it takes to complete.
- * Sprint in your garden as fast as you can
- * Outdoor gymnastics
- * Target practice using Nerf guns

Fine Motor Skills

Make your own Japanese flag! Fold a piece of white A4 paper in half and cut along the fold line (you might want to ask your adult to help). Draw around a circle and cut it out using red paper or card. Carefully glue it on the centre of your flag and add a straw at the side with sticky tape.

Phonics

Daily Phonics lessons will be uploaded on Teams in **Assignments** according to your child's phonic group.

Reading books are allocated to your child's BugClub account along with interactive games.
