

# What's New In Year 2

Week Beginning- Monday 11<sup>th</sup> October.

## All the details from this week

The children have written their own fantastic 'lost animal' story using this term's book, 'Leaf', as a template. The children really enjoyed creating their own stories and there were lots of very creative solutions to getting the main character back home to its normal habitat. In Art, the children have had great fun starting their polar bear models using a plastic bottle, newspaper and lots of tape!! The next stage is adding paper mâché to provide detail and definition to their sculptures. On Friday the children performed a class song or poem to the rest of the school as part of our Harvest Festival assembly, showing what great performers they all are.

## Phonics Screener

In preparation for the Phonics Screener your child will complete in December, we have included with this letter 4 nonsense and 4 real words to practise reading at home. These are similar to those in the Screener. We will send different words each week. Apologies that these were missed off last week!!

## Homework

When out and about this weekend, can you find some natural objects (leaves, conkers, twigs etc) that you can use to make a piece of art with an autumn theme? Maybe you could take a photo and send to your class teacher via the email below, and we can share your masterpieces in class!

## Harvest Festival

Thank you for all the kind donations for our Harvest Festival. The children enjoyed a special assembly today and found out where all the food is going and the help it will provide for those in need.

## Notes and homework for Class teachers

Class 7
